

The following is a study presented in a public forum by Mayor Kees on May 2nd, 2026 exploring the possibility of the City of Holiday Island taking over all of the services currently provided by the Holiday Island Suburban Improvement District. Although this is not intended to be a plan, it does set the foundation for future exploration and study to determine which direction would be most supported by the community.

It is critically important for everyone in the community to become involved in this process now because as the saying goes, speak now or forever hold your peace.

A Feasibility Study

Can the City Do It All?

5-2-26

SLIDE /PAGE 49 UPDATED ON 5-6-26

Today's Discussion

- **The prospects for Suburban Improvement Districts in Arkansas**
- **The current level of spending by the city and HISID**
- **Sources of revenue**
- **Budgets for cities of comparable size**
- **A future city feasibility budget**

Prospects for Suburban Improvement Districts

- **Improvement districts are authorized under various Arkansas statutes initiated by Act 41 of 1941.**
- **Purpose - to provide a mechanism for funding the creation of infrastructure like roads and sewer and water works primarily in rural Arkansas.**
- **Since 1970, Holiday Island has operated as a Suburban Improvement District formed under Ark Code Annotated §14-92-201 et. seq.**
- **The statute focuses primarily on recovery of investment and provides no good mechanism for funding long-term maintenance and operation.**
- **Attempts by Suburban and Municipal Recreational Improvement Districts to deal with the problem have resulted in lawsuits.**

Current Examples

- **As a result of a lawsuit, Horseshoe Bend has already dissolved their improvement district with the city taking over the recreational amenities in 2025.**
- **Ozark Acres settled a lawsuit by considering incorporating and phasing out the SID by 2028.**
- **A current judge's order in a Cherokee Village lawsuit has the SID being dissolved by the end of 2026.**
- **Holiday Island settled one lawsuit in 2011 and is now involved in another lawsuit that still must be litigated.**
- **None of these districts intended to illegally exact a tax from the property owners. They simply tried to find a way to pay the bills. Nevertheless, the lawsuits ensued.**

Thinking Out Loud

Isn't it prudent then for Holiday Island to be thinking about the possibility of a fate similar to the other Improvement Districts?

**What does it cost to operate Holiday
Island?**

2026 Expense Budgets

City:

• Administration	\$200,231
• Buildings and Construction	23,209
• Code Enforcement – Animal Control	77,417
• District Court	9,550
• Planning and Zoning	8,353
• Public Safety (sheriff and fire dept)	221,600
• Solid Waste	2,566
• Streets & Roads	<u>94,475</u>
Subtotal City	637,401

HISID

• Administration	890,343
• Sewer and Water	1,086,322
• Roads (net of city contribution)	292,826
• Fire Department (net of city cont.)	474,081
• Recreation	<u>1,531,305</u>
Subtotal HISID	<u>4,274,877</u>
Combined	\$4,912,278

2026 Operating + Capital Improvements

Capital Improvements

City

- Road resurfacing \$573,287

HISID

- General 75,000
- Water Department 200,000
- Road Department 210,940
- Recreation 136,500

Total Capital Improvements 1,195,727

Operating Expense (from previous slide) 4,912,278

Total Holiday Island Budget \$6,108,005

Other Cities of Comparable Size

	Population	Budget	
West Fork	3131	\$4,454,884	
Carlisle	2180	\$2,858,886	
Cherokee Village	5074	\$3,719,234	Does not include recreation or water
Green Forest	2972	\$3,496,800	

What.....Why?

Why are these other city budgets \$3.5 million to \$4.5 million and Holiday Island is \$6 million?

- 1. We are very spread out**
- 2. Most of us are retired and/or retirement age**
- 3. We have above average recreational amenities**

All of these things will be covered in more depth in the next few slides.

**Some things to think about when
looking ahead.**

Combining the City and HISID

Some Assumptions

General fund (administration):

- **The eventual cost for administration is expected to be less than the sum of the two entities as they operate today.**
- **The city will not have the legal and clerical expense associated with assessment billing, processing deed changes when properties sell, or the cost of foreclosures on assessment delinquent lots.**
- **Assumes that the city will take over trash billing just as other cities do.**

Fire Department - Background

- **Fire department budgets for a city of 2500 typically runs \$250,000 on the high side vs. Holiday Island @ \$574,081.**
- **The current operating budget for the fire department is felt to be justifiable even though it may be more than most cities our size due to how spread-out Holiday Island is, the number of residents requiring more medical assistance, and the difficulty getting volunteers due to most of the population being retired.**
- **The current capital reserve to replace trucks and maintain four fire stations is inadequate.**

Fire Department February Report

Total calls		67
Fire		
Structure		2

MVCw/extraction		0
Other		<u>4</u>
Total		52
		78%

78% medical or lift assist. In a typical month the average is even higher for EMS.

Police Protection - Background

- **Currently the city contracts with the sheriff department to provide two deputies for 80 hours a week of patrolling. And while the city does not have a serious crime problem, the current level of patrolling may leave the city vulnerable going forward.**
- **The County has had difficulty consistently supplying 80 patrol hours a week due to turnover.**
- **The sheriff deputies can only enforce state laws in Holiday Island which would include traffic and crime. They cannot enforce city ordinances. This is at times a handicap when the city code enforcement officer must issue a summons.**

A Typical Deputy Patrol Month

51% Medical or 911 Response

Medical/lift assist/citizen assist/welfare check		55
911 response		18
Civil process/dispute/disturbance		15
Crime		13
Fire		11
Traffic		9
All other		<u>21</u>
Total calls		142

Roads - Background

- **Holiday Island has 71 miles of roads. Put end to end, they would reach to Springfield, Mo. going north or to the Oklahoma border at Siloam Springs going west.**
- **Typical cities our size have 10 miles of streets which would only get you halfway to Berryville.**
- **Most city streets are concrete or asphalt with curb and gutter which requires resurfacing on a 25-30 year cycle with zero ditch maintenance expense.**
- **Only 40% of Holiday Island roads are concrete or asphalt. The remainder of the roads are chip and seal which requires resurfacing every 5-15 years depending on how good the road base is.**
- **Almost all the roads have ditches that require maintenance. 71 miles of road increases other maintenance cost proportionally like snow removal.**
- **The city received one \$300,000 grant for paving and has been awarded another \$400,000 grant that we will receive in 2026 or 2027. However, grant money is not guaranteed.**

Sewer and Water - Background

- **Just like the roads, Holiday Island has over 71 miles of sewer and water lines to maintain.**
- **The current treatment plant bond matures in October of 2031 but can likely be paid off within the next 18 months.**
- **New legislation mandates that cities include establishing and maintaining a capital replacement fund to cover the inevitable cost to replace water lines, pumps, water tanks, treatment plants and the like.**

Parks and Recreation Background

- **Current Suburban Improvement District Recreational amenities require a \$500,000 annual subsidy from assessment revenue.**
- **The city will not have access to tax revenue to provide recreational amenities. So, we need to look at options.**

**If the city is to take over 100%
responsibility and dissolve the Suburban
Improvement District, where will the
revenue come from?**

Revenue Sources

Cities in Arkansas have limited sources of revenue.

- **Sales tax** which must be approved by voters
- **Property tax** limited to 5 mills (\$.005 x 20% of assessed property value)
- **Fuel tax** turnback funds from the State for road maintenance
- **Franchise fees** (limited to 4.25% of taxable revenue)
- **Fees for services** provided (water sales, sanitation fees, use of recreational facilities, etc.)
- **Special purpose district fees** (*Urban Service Districts*)

Sales Taxes

- **Cities in Arkansas generate much of their revenue, generally well over half, from sales tax.**
- **The next slide shows sales tax revenue for several small cities in Arkansas.**
- **As you will see, the average annual revenue per person per 1% of tax is \$239.**

			Revenue						
City	Population	%	July	December	Average	Annualized	Per capita/ percent	County	<i>July Rev from their county</i>
Calico Rock	2117	3	71,880	62,617	67,249	806,982	127	Izard	0
Charleston	2611	1.5	49,594	50,810	50,202	602,424	154	Franklin	39,041
Damascus	389	1	11,509	12,261	11,885	142,620	367	Faulkner	0
Green Forest	3295	2.25	130,776	122,444	126,610	1,519,320	205	Carroll	0
Hardy	773	1	35,953	29,435	32,694	392,328	508	Sharp	11,926
Hoxie	2589	1	25,456	24,847	25,152	301,818	117	Lawrence	26,422
Imboden	770	1	13,014	15,116	14,065	168,780	219	Lawrence	6,508
Lake Village	1850	2	95,199	92,342	93,771	1,125,246	304	Chicot	22,731
Manilla	3736	1.25	56,465	62,730	59,598	715,170	153	Mississippi	77,761
Prescott	2909	2	116,911	117,511	117,211	1,406,532	242	Nevada	32,559
Averages	2104	1.6	60,676	59,011	59,844	718,122	239		

Cherokee Village and Horseshoe Bend

But Cherokee Village and Horseshoe Bend are significantly less at only about \$80 per person per percent of tax.

Cherokee Village	4979	1	31987	33360	32,674	392,082	79	Sharp/Fulton	72,870
Horseshoe Bend	2574	2	37,745	32,185	34,965	419,580	82	Izard/Sharp	218

Holiday Island is likely in this range

Why? Sales tax dollars go to the cities where people are spending their money.

Why the Difference?

Most cities *grow organically*.

- In “organic” cities the population is primarily hometown residents who are raising their families there, doing their shopping there, eating at their restaurants, sending their kids to school there, buying most everything they need there. And are possibly the hub of a rural area.

Horseshoe Bend and Cherokee Village on the other hand, like Holiday Island, were *created by developers* for retirement living.

- The population is primarily retired.
- All three cities are within 20 minutes of a Walmart in another city and within an hour from a major city where the residents go and spend their money. They only buy the necessities locally or online.
- Some only live in their Holiday Island home part time.
- Holiday Island has the added disadvantage of being 5 miles from a tourist town with over 70 places to eat and be entertained.

Property Tax

- **With a couple of very specific exceptions, the Arkansas constitution limits the amount a city can levy in property tax to 5 mills.**
- **The millage is assessed against 20% of what the county Assessor determines to be the value of your real estate and personal property.**
- **Example: Your home and lot are assessed to be worth \$250,000. And you have two automobiles valued at \$40,000. Your 5 mill city property tax would be $\$250,000 + \$40,000 \times 20\% \times .005$ or \$290.00.**

County Property Tax for Roads

- **The County levies a 3 mill property tax for roads on all property in the county. Including property owners who live in a city.**
- **50% of that tax collected on property that is within a city is returned to that city but can only be used for street/road maintenance.**
- **The County shows this on your tax bill as a 1.5 mill “city” road tax.**

Turnback Funds

- **The State receives revenue for road and highway construction and maintenance from several sources. But the majority comes from the fuel tax paid at the retail level (at the gas pump) or wholesale level.**
- **A portion of that revenue is returned to the cities on a per capita basis.**
- **Each city gets the same amount per resident based on the most recent census.**
- **Only people that claim Holiday Island as their permanent residence are included in the census population.**

Franchise Fees

- **Arkansas statutes allow for cities to charge a franchise fee typically for companies using the roads or road rights of way to provide their service.**
- **The statute limits the fee to 4.25% of taxable revenue unless a larger percentage is agreed to by both parties.**
- **Most cities in Arkansas charge franchise fees.**
- **In Holiday Island, candidates for franchise fees would be electricity, cable TV, trash service.**
- **The statutes also allow for a city to charge a franchise fee on water sales (but not sewer) even if provided by the city.**

Fees for Service

- **Cities can collect revenue for services they provide. Examples would include sewer and water and sanitation fees (trash pick up).**
- **Cities can also set up special purpose districts and charge a fee. Examples include a Public Improvement District (PID) to upgrade public spaces or facilities, a Municipal Utility District (MUD) to provide an essential service, a Community Development District for economic development, or an Urban Service District to provide an essential service.**

**A look into the feasibility of the city
doing it all.**

**Note: This is a study. Not a plan
proposal.**

Five Categories of City Finance

- **General Fund**
- **Public Safety Fund**
- **Sewer and Water Fund**
- **Parks and Recreation Fund**
- **Street (roads) Fund**

Theoretical General Fund Revenue

Revenue				
Government Revenue:				
Budget stabilization			4,200	
City 2.5% sales tax			502,660	
Municipal Aid			29,776	
5 mill property tax			250,515	
Property Tax Relief			<u>2,463</u>	
Total Government Revenue			785,414	
Licenses and fees			138,738	
Buildings and construction			13,700	
Planning commission			3,000	
Solid waste			<u>490,062</u>	
Total General Fund Revenue			1,430,914	

Theoretical General Fund Expense

Salaries and benefits			317,748
Audit fees			15,000
Credit card fees			7,200
Dues			10,000
Election expense			2,856
Insurance			70,000
Legal fees			12,000
Management services			5,000
IT support - email - website			22,000
Postage - printing - mailing			10,000

R&M Office equip/software			23,300
Rent			18,300
Supplies			10,500
Phone			7,059
Travel			3,000
Utilities			16,800
Misc			9,702
Buildings and construction			23,209
District court			9,500
Planning Commission			8,353
Solid waste			<u>464,976</u>
Total General fund expense			<u>1,115,803</u>
General Fund Net			315,111
Transfer to Street Department			<u>(300,000)</u>
Fund balance			\$15,111

Theoretical Public Safety Fund

Set up a Department of Public Safety Urban Service District

- **Includes police department or sheriff contract options**
- **Fire Department**
- **Code Enforcement**
- **Registered voters must petition the city council to pass an ordinance establishing the district**
- **Reports to the mayor like a normal city department**
- **Monthly fee is included on the water bill**
- **Fee is fixed for 10 years**
- **District must be reauthorized after 10 years with another petition**
- **Fees collected must go into the USD Fund and cannot be used for other city purposes**

Public Safety Feasibility Budget

Options	Police	Sheriff
Revenue		
Rural Fire District	25,000	25,000
Grants	5,000	5,000
Fines	20,000	0
City/Donations/fundraising	15,000	15,000
USD Fees	<u>1,283,420</u>	<u>946,489</u>
Total revenue	1,348,420	991,489
Employee cost

Total capital reserve	200,000	165,000
Total USD Expense & Capital Investment	1,283,420	946,489

Public Safety Urban Service District Fee

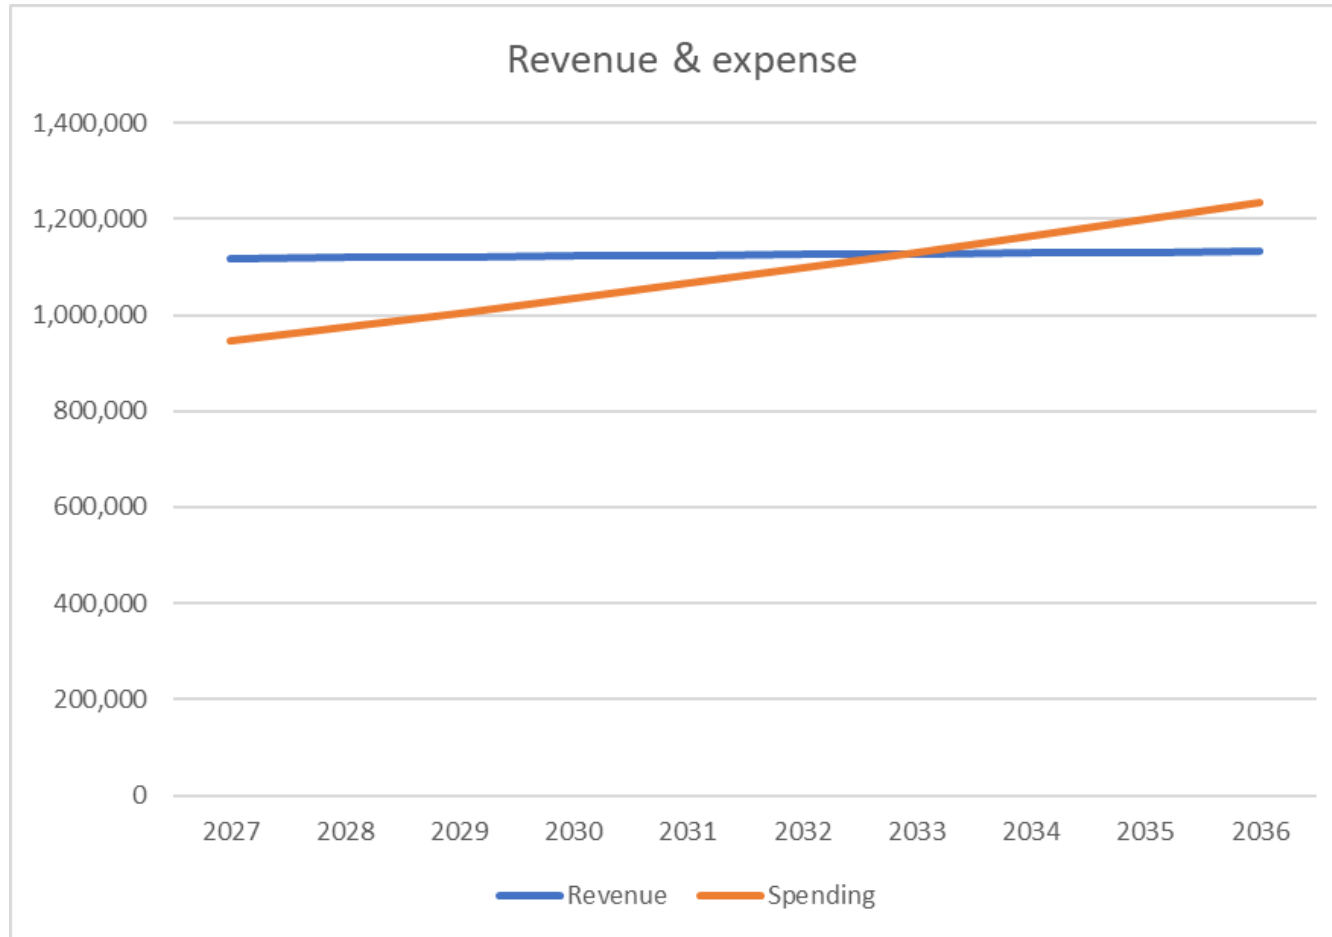

By Arkansas Statute, an Urban Service Fee is included on the water bill, the sewer bill, or the trash bill.

Urban Service District Fees Required	1,283,420	946,489
Current number of improved properties (water meters)	1491	1491
Annual fee per water meter customer	\$861	\$635
Monthly fee per water meter customer	\$72	\$53

W/Police Dept

W/Deputy

Revenue & Expense

Revenue is flat for 10 years. Spending assumes 3% inflation

Everyone's Likely Reaction

Why so much? My assessment is only \$835 now and I don't have to pay any city sales tax. And, I didn't used to have to pay city property tax.

- HISID annually collects about \$2.3 million in assessment revenue net of the sewer bond assessment. That revenue has to be replaced by the city from other sources.**
- Vacant lots currently generate about \$840,000 of that \$2.3 million. Those same vacant lots will only generate about \$33,000 from the 5 mill property tax.**
- Replacing assessments with property tax and user fees puts more responsibility on the improved property owners and residents who directly benefit from the city services.**

Sewer and Water Fund

The current rate does not generate the revenue required to replace equipment.

Sewer and Water Fund	Current
Revenue	2,026
Water sales (net of sewer bond fees)	620,000
Water turn on fees	14,000
Water service installation	5,000
Irrigation service installation	1,500
Sewer sales	350,000
Sewer service installation	3,500
Late charges	13,000
Other	<u>500</u>
Total revenue	1,007,500

Expense	2,026	Future
Wages	285,341	293,901
Benefits	65,230	67,187
Total employee expense	350,571	361,088
Operation		
Chemicals	30,000	30,900
Dues & fees	14,000	14,000
Equipment purchase <\$5000	7,500	7,500
Fire hydrants	2,500	2,575
Fuel	10,000	10,300
Insurance		27,000
Lab fees	10,000	10,300

R&M Buildings	179,000	184,100
Road cuts		60,000
Safety/security	4,000	4,105
Tank maintenance	128,751	132,614
Telephone	6,600	6,798
Waste disposal	45,000	46,350
Travel/lodging	4,500	4,500
Uniforms	3,400	3,400
Utilities	<u>225,000</u>	<u>231,750</u>
Total operating expense	670,751	776,707
Operational contingency reserve	0	12,000
Capital improvement reserve	<u>0</u>	<u>100,000</u>
Total expense	1,021,322	1,249,795
Department net	-13,822	

Sewer and Water Fund

State statutes now require that municipal sewer and water operations include in their rate structure funding for a capital replacement reserve. This rate increase will be offset by the sewer bond service charge dropping off the sewer/water bill.

Parks and Recreation Urban Service District

Remember this is a STUDY. Not a Proposal!

Providing the current recreational amenities requires a \$495,035 annual subsidy from assessment revenue. Consequently, this study makes some assumptions.

- A Parks and Recreation Urban Service District would be established.**
- The 9-hole golf course would be converted into a large mowed park area. Grants would be solicited to repurpose the area into lower maintenance activities.**
- The swimming pool would become a public pool requiring lifeguards. Use of the pool would be free for USD members. The public would pay to use the pool.**
- The Clubhouse would become a community center. Use of the community center would be free for USD paying members for community functions.**
- Golf would continue to carry a greens fee for anyone to play. Without the 9-hole maintenance expense, focus can be put on improving the quality of the 18-hole course thereby eventually increasing play and revenue.**
- Since all property owners would be able to use the USD amenities, all property owners would be billed the annual fee.**

Parks and Recreation Nationally

- **The national average for spending on parks and recreation for a city of 2500 population is \$81.19/capita. Or \$203,000 annual. This would be for the type of parks and recreation you would find in a typical small town.**
- **Holiday Island is primarily a vacation and retirement community where above average recreational amenities would be a key element for growth and sustainability.**
- **Lifestyle is also a key consideration for families looking for a place to work from home and raise a family.**

Parks & Recreation Urban Service District

Parks and recreation urban service district	Revenue	Employee Expense	Operating expense	Total Expense	Net
Urban service district revenue	611,076	0	0	0	611,076
Community center restaurant, ballroom	320,000	245,503	210,120	455,623	-135,623

Grant	<u>400,000</u>	<u>400,000</u>
Total through 2026	\$2,439,878	\$1,812,315

Over \$750.00 per assessment paying property owner.

Putting it all together.

Feasibility Study for Future Without HISID

The difference between Option #1 and #2 is staying with a sheriff contract for two deputies or setting up a Holiday Island Police Department.

Feasibility budget summary	Revenue			Expense				
W/Sheriff Contract	Government			Salary				Surplus
Department	Receipts	Other	Total	Expense	Other	Total	Reserve	(Deficit)
General fund	785,414	645,500	1,430,914	317,748	1,098,055	1,415,803		15,110

Transition recreational amenities											
HISID begins the process to dissolve											

Options at this Point

- **Option #1:** Pursue this or some similar plan. It's better to have our plan than to have someone else's plan forced on us!
- **Option #2:** Transition road responsibility in 2026 and then wait until the long- term viability of HISID becomes clear.
- **Option #3: ?**

Questions and Comments

- **HISID BOC & City Council**
